Subject: Dimock Inquiry from Canadian Reporter

Betsaida,

Since this reporter is in Canada, I presume you will get back to him. He just called me. Thanks. -- Terri

Kevin Ball of CBC radio in Canada. He said he's spoken to a Dimock resident who said his well is contaminated because of Cabot's drilling. The reporter also interviewed a Cabot spokesperson who said that the DEP declared the water safe. He wants to get EPA's position. He is actually requesting to do a taped interview.
